**Report of Facility Information**  
**Public Notice**

Date of Notice: June 22, 2009

***Notice of Change to the  
Report of Facility Information***

**Facility Name:** Waste Management of Orange Transfer Station

**Facility Address/Location:** 2050 Glassell Avenue, Orange, CA 92865

**Solid Waste Facility Permit No.:** 30-AB-0363

**Date LEA Received Application:** May 26, 2009

**Date LEA Approved Application:** June 17, 2009

**LEA Findings per §21665(c):** The LEA finds that the proposed changes are consistent with all CEQA documents; is acceptable and consistent with all state minimum standards; and the proposed changes do not conflict with the existing solid waste facility permit (SWFP).

**Description of Proposed Changes:** Waste Management of Orange Transfer Station proposes to add equipment to process recyclable organic materials. Collected organic materials will be placed into a pulper to reduce the particle size and volume, and reduce water content. If necessary, the resulting material may then be fed into a dehydrator to remove the remaining moisture. The pulping and dehydrating processes result in a nutrient-rich product that is to be sent offsite to various third party users. All recyclable processing activities will occur within the transfer station buildings at the facility.
